2nd Symposium on Interventional and Surgical Treatment of Emphysema

A multidisciplinary concept

January 22-23, 2016

University Hospital Zurich | www.unk.ch/ symptome/2016
Dear colleagues,

We are delighted to invite you to the 2nd international Symposium on Interventional and Surgical Treatment of Emphysema that will take place in Zurich on January 22-23, 2016. We are pleased to let you know that many international experts have agreed to participate and share their expertise on this topic.

Several studies have been published on this topic providing new evidence to discuss. The first Symposium on Interventional and Surgical Treatment of Emphysema two years ago was a big success and many of you have asked us to organize another symposium. In the last two years, interdisciplinary concepts in the management of advanced emphysema with a special focus on endobronchial or video-assisted thoracoscopic treatment of lung hyperinflation.

The target audiences are pulmonologists, thoracic surgeons and chest radiologists. We are convinced that many international experts have agreed to participate and share their expertise on this topic.

The aim of the symposium is to define the different treatment options in advanced emphysema and how they should be used in individual patients. The target audiences are pulmonologists, thoracic surgeons and chest radiologists.
